## Flashback

23<sup>rd</sup> edition

---

Feb 1 2017

## Agenda

6:45 pm - 7:30 pm

### Understanding the intelligent cloud

Automating intelligent decisions based on information developed through machine learning and analytics, by using the services provided by Azure. The entire process of captured telemetry to taking action on them will be discussed.

By: Ritesh Modi, Architect and Senior Technology Evangelist, Microsoft. (<https://in.linkedin.com/in/ritesh-modi>).
